Axiom 1

Ultimate Frisbee is played by a **player**.

Axiom 2

Each **player** has their own physiology.

Axiom 3

Each **player** has individual preference and philosophy with respect to play-style.

Solution

Considering the axioms, there cannot exist a *perfect cleat for ULTIMATE FRISBEE*, but rather there can only exist cleats for specific player archetypes.

Caveats: This list is by no means exhaustive as the output of this discourse function is contingent on several variables which blows up the **range** of ideal cleats; i.e. consider having shit ankles and needing more stability support :/.
