

April 14, 2025

Hello Professor,

I would like to tutor COMP9020 next term. Principally, I need an income. We pay rent and because I have taken so long to complete this degree the government will (understandably) not support me through this final term.

As a consequence; *artificia docuit fames*; I shall be your most hard-working tutor.

Beyond this, I am also **academically interested** in the content of your COMP9020 course, and would like to work alongside both yourself and **Edward Norman<sup>†</sup>**.

To prepare myself for this request I have (almost) completed the MATH1081 Problem Set. Furthermore, I have studied the outline and written an (incomplete) explainer on Time Complexity at <https://abaj.ai/projects/ccs/comp-complexity>.

Finally, I have made the corresponding submission to **Talloc** and hope you accept an **Aayush Bajaj**, **zID: z5362216** as tutor for CS9020 next term.

If you do decide to do so, I request that you respond to this email with problem sets / tests so that I may chip away at them in preparation for becoming an excellent tutor.

Regards,

Aayush

---

<sup>†</sup>my current, and coolest yet, tutor
