1.1 3-Stack Flow

TECHNIQUE

Setup

Equipment. 8+ players, 3 cones, 1 disc.

Procedure

- No defence.
- Disc passes through a cascade of timed under-cuts.
- Middle-cone players switch direction depending on where the disc was received.
- The throw should come off as, or as soon as, the receiver changes direction.

Body text sample: it is striking how a small change in cushion – say one metre or two – can change a defender’s read on the deep shot. Mono: X_0 , $t=30s$.
